

Accelerate Legacy System Modernization with AI

Make it Easier and Faster to Modernize with LegacyLift™

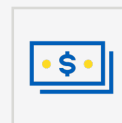

Modernizing legacy systems is no longer just a technical necessity. It has become a strategic priority for organizations seeking to accelerate innovation, reduce risk, and maintain a competitive edge.

LegacyLift™ empowers organizations to meet this strategic imperative by leveraging advanced AI and agentic coding to automate the analysis and documentation of legacy systems. With LegacyLift™, teams can modernize faster and more efficiently, reduce risks and costs, deeply understand and document system intent, and gain actionable insights for continuous improvement.

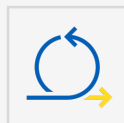

KEY BENEFITS

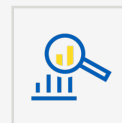

Modernizes faster and more efficiently.

Reduces risks and lowers costs.

Understands and documents system intent.

Gains actionable insights for continuous improvement.

Mitigate Modernization Risks

Replacing legacy systems carries the risk of delivering incomplete or inaccurate functionality, schedule delays, and cost overruns. Traditional code conversion tools simply shift outdated, monolithic systems onto new platforms, leaving them difficult to modify and adapt. LegacyLift™ addresses these challenges by providing a strategic, AI-driven approach to modernization.

Instant Code Insights

LegacyLift™ has minimal requirements to begin. All analysis runs securely within the client's environment, ensuring data privacy and compliance. CapTech's team can start reviewing and extracting requirements from legacy code on day one, accelerating modernization without lengthy setup or disruption.

Intelligent Code Analysis

LegacyLift™ bridges the gap between legacy systems and modern technology by intelligently analyzing outdated code and automatically deriving business requirements from existing functionalities. Our generative AI streamlines the modernization process, enabling teams to confidently transition to modern tech stacks with reduced risk and increased speed.

Accelerate Transformation

With accelerated insights and a structured approach, LegacyLift™ lays the foundation for subsequent modernization workstreams. Teams can efficiently navigate the complexities of legacy applications, driving transformation forward with operational excellence and minimized business disruption.

Let's do next together.®

CapTech.

captechconsulting.com

CapTech is a national consulting firm that helps clients grow efficient, successful businesses. We do so by bringing the data, systems, and ingenuity organizations need to stay ahead and transform what's possible in a changing world. Here, we're master builders, creators, and problem solvers who find inspiration in the unknown and enjoy getting our hands dirty as we design solutions for each client. Across industries and business goals, we fuse technical depth and analytical prowess with creative savvy to ignite innovation and move business forward. This drive helps each organization use technology, management, and insight to turn ideas into action. Together, we create outcomes that exceed the expected — which is one of the reasons we've been on the Inc. 500/5000 list for over a decade.
